

Incident After-Action Report Template

TEMPLATE — OPERATIONAL

TEXAS SMART CITY PUBLIC SAFETY PROGRAM

DOCUMENT TEMPLATE

Document ID: TX-SCPS-TMPL-001 | Title: Incident After-Action Report Template | Version: 1.0 | Effective Date: 2026-04-01 | Review Cycle: Annual | Supersedes: None | Classification: TEMPLATE — OPERATIONAL

AUTHORITY: TX-SCPS-POL-002 (Crowd Management Data Governance), TX-SCPS-SOP-001 (Crowd Density Alert Response)

USAGE INSTRUCTIONS: This template must be used for all After-Action Reports (AARs) required under TX-SCPS-SOP-001 Section 5.4. Submit completed reports within 24 hours of de-escalation for EMERGENCY incidents and within 48 hours for CRITICAL incidents that required EOC notification. The AI Report Generation system (POST /api/v1/reports/generate) uses this template structure when producing PDF reports. All required fields are mandatory; optional fields are marked [OPTIONAL].

Section 1 — REPORT HEADER

Report Type	INCIDENT AFTER-ACTION REPORT
Report Reference Number	TX-SCPS-AAR-[YYYY]-[NNNN] (assigned by Records Management)
Date of Report	[YYYY-MM-DD]
Time of Report	[HH:MM] [Timezone]
Reporting Officer	[Full Name]
Officer Badge / ID	[ID]
Division / Unit	[OC / Field Unit / AI Operations]
Supervisor Review	[Supervisor Name, Badge ID]
Report Status	DRAFT / FINAL

Section 2 — INCIDENT IDENTIFICATION

Incident ID	[Auto-generated by case management system or manually assigned]
AI Alert ID	[UUID from /api/v1/alerts — format: xxxxxxxx-xxxx-xxxx-xxxx-xxxxxxxxxxxx]
Incident Date	[YYYY-MM-DD]
Incident Start Time	[HH:MM] [Timezone]
Incident End Time	[HH:MM] [Timezone] (time of confirmed de-escalation)
Total Duration	[HH:MM]
Alert Severity Level	CRITICAL / EMERGENCY
Zone Name	[Location name as shown on dashboard]
Zone ID	[zone_id string, e.g. congress_plaza_main]

Camera Stream ID(s)	[stream_id integer(s), comma-separated if multi-zone]
City / Jurisdiction	[Austin Downtown TX / Dallas Downtown TX / Houston Downtown TX]
GPS Coordinates	Lat: [##.####] Lon: [-##.####]

Section 3 — AI SYSTEM ALERT DATA

(Source: /api/v1/analytics/density/{stream_id} and /api/v1/alerts at time of incident)

Initial Alert Timestamp	[YYYY-MM-DD HH:MM:SS UTC]
Peak Person Count (AI reported)	[N]
Peak Density Score	[0.00–1.00]
Alert Severity at Peak	CRITICAL / EMERGENCY
Zone CRITICAL Threshold	[N persons] (per TX-SCPS-SOP-002)
Threshold Exceeded By	[N persons above CRITICAL / N persons above EMERGENCY]
AI Alert Acknowledged At	[HH:MM:SS]
Time to Acknowledge	[N] minutes
Density at De-escalation	[N] persons, score [0.00–1.00], severity [SAFE/MEDIUM]

AI System Status During Incident:

- Pipeline operational: YES / NO / DEGRADED
- Stream FPS at peak: [N] fps
- Latency (P95) at peak: [N] ms
- Any pipeline errors detected: YES / NO — [describe if YES]

[OPTIONAL] False Positive Assessment: Was the alert confirmed as a true positive by visual inspection? YES / NO / UNCERTAIN. If NO or UNCERTAIN, describe discrepancy:

Section 4 — RESPONSE TIMELINE

Provide a chronological log of all significant actions. Add rows as needed.

Time (HH:MM)	Actor	Action
[HH:MM]	OC Supervisor	Alert received and acknowledged in dashboard
[HH:MM]	OC Supervisor	Zone Response Protocol [ZRP ID] activated
[HH:MM]	Dispatch Coordinator	Field unit [callsign] notified, ETZ [N] minutes
[HH:MM]	OC Supervisor	EOC notified [YES/NO — if YES, time and method]
[HH:MM]	Officer [Badge ID]	Arrived at zone perimeter
[HH:MM]	OC Supervisor / Officer	Crowd management action taken: [describe]
[HH:MM]	OC Supervisor	De-escalation confirmed, field units stood down
[HH:MM]	OC Supervisor	EOC notified of de-escalation
[HH:MM]	OC Supervisor	Incident Log closed in case management system

SOP Compliance:

- Acknowledged within 2 minutes: YES / NO — actual time: [N] minutes
- Officers dispatched within 5 minutes: YES / NO — actual time: [N] minutes

- EOC notified (if required): YES / NO / N/A — actual time: [N] minutes
- Post-incident log within 60 minutes: YES / NO — actual time: [N] minutes
- If any SOP step was not completed within the required timeframe, state reason:

Section 5 — PERSONNEL INVOLVED

List all personnel involved in the incident response.

Role	Name	Badge/ID	Unit
OC Supervisor (primary)	[Name]	[ID]	[Unit]
Dispatch Coordinator	[Name]	[ID]	[Unit]
Responding Officer 1	[Name]	[ID]	[Unit]
Responding Officer 2	[Name]	[ID]	[Unit]
Zone Commander	[Name]	[ID]	[Unit]
EOC Duty Officer (if notified)	[Name]	[ID]	EOC
AI Operations On-Call	[Name]	[ID]	AI Ops
[Add rows as needed]			

Mutual Aid Requested: YES / NO

If YES, agency name and resources:

Section 6 — EVIDENCE ATTACHMENTS

All CRITICAL and EMERGENCY incidents require the following evidence to be attached or referenced.

6.1 Video Evidence

- Stream URL / Recording Reference: [MediaMTX RTSP/WHEP URL or recording file path]
- Recording Start Time: [YYYY-MM-DD HH:MM:SS UTC]
- Recording End Time: [YYYY-MM-DD HH:MM:SS UTC]
- Retention Classification: 90-day standard / Indefinite (EMERGENCY / legal hold)
- Chain of Custody: Evidence secured by: [Name, Badge ID] | Date/time secured: [YYYY-MM-DD HH:MM]
- | Storage location: [MediaMTX volume reference / evidence management system ID]

6.2 Density Heatmap Evidence

Heatmap images captured at 5-minute intervals during incident:

- [HH:MM] — [file reference or note 'attached to report job {report_id}']
- [HH:MM] — [file reference]
- [Add entries for each capture]

6.3 AI Alert Data Export [OPTIONAL]

- Export of density time-series for affected stream_id(s):
- Source: GET /api/v1/analytics/trends?range=day&zone;_id=[zone_id]
- Date range: [YYYY-MM-DD HH:MM] to [YYYY-MM-DD HH:MM]
- File reference: [attached CSV or report data reference]

6.4 Radio Log Reference [OPTIONAL]

- Radio transmission log reference: [call log ID in communications system]

Section 7 — INCIDENT NARRATIVE

Provide a factual narrative of the incident. Include: how the crowd density developed, the human response actions, any deviations from SOP, environmental factors (weather, event, time of day), and how the incident was resolved.

[Narrative text — minimum 200 words for EMERGENCY incidents, minimum 100 words for CRITICAL with EOC notification]

Section 8 — CONTRIBUTING FACTORS

Identify factors that contributed to or complicated the incident:

Environmental / Contextual:

- ☐ Permitted public event in the zone
- ☐ Unpermitted gathering
- ☐ Adverse weather conditions
- ☐ Infrastructure constraint (road closure, construction)
- ☐ Time-of-day / day-of-week high-traffic period
- ☐ Other: [describe]

AI System Factors:

- ☐ AI alert fired as expected with no issues
- ☐ False positive suspected
- ☐ False negative suspected (crowd was higher than AI reported)
- ☐ Pipeline degraded during incident
- ☐ Threshold may need calibration
- ☐ Other: [describe]

Response Factors:

- ☐ Response met all SLA timelines
- ☐ Resource unavailability caused delay
- ☐ Communication issue caused delay
- ☐ SOP ambiguity caused delay
- ☐ Other: [describe]

Section 9 — OUTCOMES AND INJURIES

Outcome classification:

- ☐ Incident de-escalated without injury or property damage
- ☐ Medical assistance required — number of persons: [N]
- ☐ Injury to member of public — [describe]
- ☐ Injury to officer — [describe]
- ☐ Property damage — [describe]
- ☐ Arrest(s) made — number: [N], charges: [describe]
- ☐ Use of force — [describe; attach separate Use of Force report]

Crowd dispersal method (if applicable):

- ☐ Verbal direction by officers
- ☐ Physical barrier placement
- ☐ Announcement system
- ☐ Other: [describe]

Media presence noted: YES / NO PIO notified: YES / NO — Time: [HH:MM]

Section 10 — RECOMMENDED ACTIONS

Based on this incident, identify recommended follow-up actions. Each action must have an owner and target date.

10.1 Threshold / AI calibration recommendations:

e.g., 'Recommend reducing CRITICAL threshold for zone congress_plaza_main from 15 to 12 during Friday-Saturday 20:00–02:00 based on observed density patterns.' — Owner: AI Operations / Target: [YYYY-MM-DD]

10.2 SOP improvements:

e.g., 'Step 2.2 EOC notification language is ambiguous regarding multi-zone events; recommend update to TX-SCPS-SOP-001.' — Owner: OC Division / Target: [YYYY-MM-DD]

10.3 Training needs:

e.g., 'Two OC operators were unfamiliar with the ZRP activation procedure; recommend tabletop refresher.' — Owner: Training Division / Target: [YYYY-MM-DD]

10.4 Infrastructure / technology recommendations:

e.g., 'Stream latency exceeded 2000ms during peak density, potentially delaying alert by 1–2 cycles. Recommend MediaMTX buffer tuning.' — Owner: AI Operations / Target: [YYYY-MM-DD]

10.5 Other recommendations:

[Describe]

Section 11 — COMPLIANCE CERTIFICATIONS

11.1 Privacy and Civil Liberties Compliance (TX-SCPS-POL-004)

- Were all AI surveillance activities conducted within the authorised use parameters? YES / NO
- Was any biometric data (facial recognition) used in this incident? YES / NO
- If YES, was it authorised and documented per POL-004 protocols? YES / NO / N/A
- Privacy Officer review required: YES / NO — [If YES, attach POL-004 review form]

11.2 Data Retention Compliance (TX-SCPS-POL-002)

- Video evidence classified and retained per POL-002 schedule? YES / NO
- Chain of custody documented? YES / NO

11.3 Deviations from Standard Operating Procedures

- Were any deviations from TX-SCPS-SOP-001 made during this incident? YES / NO
- If YES, describe deviation and justification:

Section 12 — SIGN-OFF AND REVIEW CHAIN

Reporting Officer:

- Name: [Name]
- Badge/ID: [ID]
- Signature: [Electronic signature or printed name]
- Date/Time: [YYYY-MM-DD HH:MM]
- Certification: "I certify that the information in this report is accurate and complete to the best of my knowledge."

Supervisor Review:

- Name: [Supervisor Name]

- Badge/ID: [ID]
- Signature: [Electronic signature or printed name]
- Date/Time: [YYYY-MM-DD HH:MM]
- Status: APPROVED / RETURNED FOR REVISION
- Comments: [if any]

Zone Commander Review (required for EMERGENCY incidents):

- Name: [Name]
- Badge/ID: [ID]
- Signature: [Electronic signature or printed name]
- Date/Time: [YYYY-MM-DD HH:MM]
- Status: APPROVED / RETURNED FOR REVISION

Privacy Officer Review (if required per Section 11.1):

- Name: [Name]
- Date/Time: [YYYY-MM-DD HH:MM]
- Status: APPROVED / CONDITIONS NOTED
- Conditions: [if any]

Section 13 — DOCUMENT METADATA

- Report submitted to case management system: YES / NO — Case ID: [case_id]
- Milvus RAG system indexed: YES / NO (auto-indexed at next API startup)
- Linked AI report job ID: [report_id UUID from /api/v1/reports, if applicable]

Distribution:

- ☐ Zone Commander
- ☐ Watch Commander
- ☐ OC Director
- ☐ AI Operations Lead
- ☐ Records Management
- ☐ EOC (if EOC was notified)
- ☐ Legal / Compliance (if injuries or use of force)
